Trustee's Report

The Trustee is pleased to present the annual report and financial statements of the Reuters Supplementary Pension Scheme (the "Scheme") for the year ended 31 December 2021.

The Scheme was established under the provisions of a Trust Deed dated 29 December 1978. The Scheme is an occupational defined benefit scheme providing benefits for employees of the Sponsoring Employer.

Until 5 April 2016, members were contracted out of the State Second Pension under a Certificate issued by the HM Revenue & Customs National Insurance Contributions office.

The Scheme is registered under the Finance Act 2004. Prior to the introduction of this Act, the Scheme was an "exempt approved scheme" under the terms of the Income and Corporation Taxes Act 1988.

Scheme Management

The Scheme is managed by a Corporate Trustee for the benefit of the members and their dependants in accordance with the Scheme Rules. The Corporate Trustee of the Scheme is Reuters SPS Trustee Limited. The provisions for appointing and removing the Corporate Trustee rest with the Sponsoring Employer. Four of the Directors of the Trustee, including the Chair, are appointed and may be removed by the Sponsoring Employer. The remaining two Directors are Member Nominated Directors (MNDs) who must be active, deferred or pensioner members of the Scheme and elected by active, deferred and pensioner members. Each MND normally holds office for five years.

The full Trustee Board met 7 times during the year to discuss the ongoing strategy and management of the Scheme. The Investment sub-committee and the Operations sub-committee (OSC) of the Trustee Board also met regularly during the year to discuss their designated areas. The sub-committees, with the exception of the OSC, do not have delegated powers from the Trustee. Members of the OSC are currently Martin Vickery, who chairs the sub-committee, Rachel Croft and Peter Marsden; the OSC is a joint committee with the related Reuters Pension Fund for whom Peter Marsden is a trustee director.

Governance and Risk Management

The Trustee has prepared a forward-looking business plan, setting out what issues should be considered and when. This is reviewed regularly. During the year, the Trustee addressed, amongst others, the issues on the below and on the following page:

(i) Risk Management

The Trustee is responsible for risk management of the Scheme and for the underlying controls mitigating identified risks, which are included in the Scheme's Risk Register. The Risk Register was reviewed and updated. The risk management process is designed to manage, rather than to eliminate, the risk of error, loss or failure to comply with regulatory requirements. During the year the Trustee, with the assistance of an external specialist company, reviewed risks relating to cyber security of their advisers' systems and processes and actions were taken to strengthen existing processes where necessary.

Trustee's Report

(ii) Changes to the Scheme's Rules

There were no changes to the Scheme's Rules during the year.

(iii) Trustee Knowledge and Understanding

During the year, the Trustee received training from their advisers on current issues in order to maintain the level of knowledge and understanding required to perform the role of Scheme Trustee. Individual Trustee Directors also attended external training sessions and conferences on investment and current pension issues.

GMP equalisation

In October 2018, the High Court ruled that pension schemes are required to equalise benefits between men and women for the effect of Guaranteed Minimum Pensions (GMP) which were accrued on or after 17 May 1990.

The High Court has since, in November 2020, determined that trustees owed a duty to a transferring member to make a transfer payment which reflected the member's right to equalised benefits. Where the initial transfer payment was inadequate on this basis trustees are under an obligation to make a top-up payment to the receiving scheme on behalf of the transferred member.

The Trustee is reviewing, with its advisers and the Sponsoring Employer, the implication of these rulings in the context of the Scheme rules and the value of any liability. On completion of the review the Trustee will put together a plan for correcting past benefits as well as inequalities in benefits coming into payment.

COVID-19

The outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a global health emergency on 30 January 2020, caused disruption to businesses and economic activity which was reflected in fluctuations in global stock and financial markets. The Trustee has been coordinating its operational response based on existing business continuity plans and on guidance from global health organisations, UK Government and general pandemic response best practice. The Trustee also put in place a special temporary delegation of powers to a Trustee sub-group to ensure that the Scheme would continue to run efficiently in the event that some of its Directors become ill and unable to carry out their duties, although there has been no need so far for the sub-group to be activated. The Trustee continues to monitor developments relating to COVID-19 on the bases of guidance from the UK Government.

London Stock Exchange acquisition of Refinitiv Limited

On 1 August 2019, London Stock Exchange Group Plc ('LSEG') announced that it had agreed with Thomson Reuters and the Blackstone consortium the acquisition of Refinitiv Limited in an all share transaction completed on 29 January 2021. The Trustee is in receipt of a guarantee dated 28 January 2021, signed by members of the Sponsoring Employer's group, whereby the financial obligations of the Scheme's Sponsoring Employer have been guaranteed up to a maximum value of £120m.

Trustee's Report

Russia's war in Ukraine

The current uncertainty, and the associated sanctions against Russia and Russian individuals, has led to volatility in investment markets. How those events might develop, the scale of those developments and the wider impacts are hard to predict, though a period of heightened uncertainty seems inevitable. The amount of exposure to Russia is regarded as trivial to the Scheme. The Trustee has not identified any further material risks to the Scheme or Employer covenant because of Russian Sanctions although the Trustee will continue to closely monitor the situation.

Scheme Membership

Details of the current membership of the Scheme are given below:

	31 December 2021	31 December 2020
Active members	-	1
Deferred Members	15	19
Pensioners	154	151
	169	171
Active members		
Active members at start of year	1	1
Less: Retirements	(1)	-
Active members at end of year	-	1
Deferred members		
Deferred members at start of year	19	22
Less: Retirements	(3)	(1)
Transfers out	(1)	(2)
Deferred members at end of year	15	19
Pensioners		
Pensioners at start of year	151	149
Adjustment to previous year	1	1
Plus: Retirements	4	1
New spouse pension	1	1
Less: Deaths	(3)	(1)
Pensioners at end of year	154	151

Included in the pensioner figure above are 19 (2020: 17) pensions covering spouses and dependants.

At 31 December 2021, all pensioners and deferred members of the Scheme are covered by the buy-in insurance policy provided by Legal & General Assurance Society entered into during the course of the year.

Trustee's Report

Pension Increases

Pensions in payment received the following increases during the year in line with requirements under legislation and the Scheme's Rules:

- Pensions earned before 6 April 1997 received a discretionary increase of 1.1% (2020: 2.4%) with effect from 1 January 2021. Discretionary increases were awarded by the Employer and Trustee for 2021 and will continue to be granted until 1 January 2024.
- Pensions earned between 6 April 1997 and 5 April 2005 received a statutory increase of 1.1% (2020: 2.4%) with effect from 1 January 2021.
- Pensions earned after 6 April 2005 received a statutory increase of 1.1% (2020: 2.4%) with effect from 1 January 2021.
- Post 88 GMP pensions in payment received an increase of 0.5% (2020: 1.7%) with effect from 1 January 2021.

Pensioners with individual increase guarantees received increases in line with their specific arrangements.

Transfer Values

Transfer values paid during the year were calculated and verified in accordance with the appropriate regulations under the provisions of the Pension Act 1993 and guidelines issued by the Institute of Actuaries. No transfer values were paid during the year which were less than the full value of the member's preserved benefits. No transfer values paid were reduced below the level calculated using tables supplied by the Scheme Actuary.

No allowance is made for discretionary pension increases in the calculation of transfer values.

Actuarial Valuation

As required by Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" (FRS 102), the financial statements do not include liabilities in respect of promised retirement benefits.

A full actuarial valuation of the Scheme was undertaken as at 31 December 2019 and disclosed that assets exceeded liabilities at that date, resulting in a surplus of £18.1 million. This was equivalent to a funding level of 106%.

A summary of the results of the full actuarial valuation is included in the Actuary's Report on pages 17 and 18. In addition, the Actuary's Certificate in respect of the adequacy of rates of contributions agreed as part of the valuation, is reported on page 21 of this Report.

The next formal actuarial valuation will be as at 31 December 2022.

Trustee's Report

Financial Development of the Scheme

The financial statements have been prepared and audited in accordance with regulations made under section 41 (1) and (6) of the Pensions Act 1995, save that the financial statements were not prepared and audited within the 7-month timeline.

The active members pay contributions at a rate of 6% of pensionable salaries. For members who elected to join the Pension Adjustment, member contributions reduced to nil with effect from 1 June 2005 and the Sponsoring Employer has met the cost of the corresponding member contributions.

The Scheme met all expenses. The Sponsoring Employer met the cost of externally insuring the lump sum death in service benefit provided by the Scheme and contributed to the Scheme the National Insurance savings it made through the Pension Adjustment.

	2021
	£'000
Contributions and other receipts	3,140
Benefits paid and other expenses	(15,828)
Net withdrawals from dealings with members	(12,688)
Net returns on investments	(22,014)
Net assets at 1 January	333,996*
Net assets at 31 December	299,294

*the comparative 2020 balances have been restated (see note 23 to the financial statements).

Additional Voluntary Contributions

Up until 5 April 2006 the Rules of the Scheme permitted members to pay Additional Voluntary Contributions (AVCs) to arrangements with Prudential Assurance Company Limited ("Prudential") in order to augment their pensions or lump sum death benefits. After that date, the Refinitiv Retirement Plan (formerly 'Thomson Reuters UK Retirement Plan') (RRP) was opened as an AVC vehicle for active members of the Scheme and all new AVCs were invested in RRP. Subsequent to the year end, Refinitiv Limited, after discussions with the RRP Trustee and consultation with active members, determined that all future contributions would be made to the Legal & General WorkSave Mastertrust, with effect from 1 April 2022. This included any AVCs paid to the RRP Plan by Scheme members.

The RRP Trustee and its sponsoring employer also agreed that a bulk transfer of all cumulative funds under the RRP Plan as of 31 March 2022, will be made to the same master trust arrangement. This transfer completed at the end of April 2022 and the RRP Trustee has commenced the wind-up of the RRP Plan.

Trustee's Report

Investment Matters

Overview

The Trustee, with the assistance of its appointed Investment Adviser, determines the overall investment strategy for the Scheme and sets out the broad policy to be adopted by each of the appointed fund managers.

In September 2021, the Trustee entered into a buy-in, bulk annuity insurance contract with Legal & General Assurance Society Limited ("LGAS"), covering all pensioners and deferred members of the Scheme as at the contract inception date. The total consideration due under the contract, subject to certain specified amendments, was c£303m, of which £296.6m has been paid in the year ended 31 December 2021 and the balance of £6.4m is due by 30 September 2022.

The Scheme's asset allocation now consists of a single bulk annuity contract with LGAS that matches the related actuarial liabilities. Residual cash is held with BMO and the Trustee bank account to cover ongoing Scheme and other expenses.

Investment Managers

The names of the managers who managed the Scheme's investments during the year are listed on page 3. The Trustee has delegated the day-to-day management of investment to its appointed fund managers. A written agreement between the Trustee and each manager sets out the terms on which the manager will act.

Statement of Investment Principles

In accordance with section 35 of the Pensions Act 1995, the Trustee has produced a Statement of Investment Principles (SIP).

The SIP is required by law and summarises how the Trustee:

- sets the investment policy and chooses the most suitable types of investments for the Scheme.
- delegates buying and selling investments to the Scheme's investment managers.
- monitors the performance of the Scheme's investments.

A copy of the SIP is available on request from the Administrator at the address on page 3 of this report. A new SIP was agreed post year end in April 2022. There have been no departures from the SIP in the year ended 31 December 2021.

The Trustee has considered ethical and socially responsible investments and has delegated to the investment managers responsibility for taking environmental, social and governance ("ESG") including climate related risks into account when assessing the potential and suitability of investments and for exercising rights attaching to the Scheme.

Whilst the Trustee considers that financially material considerations such as ESG issues and climate change factors are likely to have financial impacts on pension investments, in the context of the Scheme's recent investment in a single bulk annuity contract and limited cash held in a liquidity fund, the Trustee no longer considers these considerations would be material over the time horizon of the Scheme.

Trustee's Report

Custodial arrangement

The investment manager in which the Trustee invests use their own custodian. The custodian is responsible for the safe keeping of all the assets of the Scheme. The Trustee is ultimately responsible for ensuring that the Scheme's assets continue to be held securely, and it will review the custody arrangements from time to time.

Asset allocation

On 30 September 2021, the Scheme transacted a full buy-in with LGAS. This involved an in-specie transfer of the Scheme's bonds to LGAS. There was also a full redemption of the Scheme's credit funds (PIMCO Global LIBOR Plus Fund, TwentyFour Dynamic Bond Fund and the Aegon European ABS Composite Fund UCITS) with the cash proceeds being transferred to LGAS. As at 31 December 2021, the Scheme's asset allocation consisted of a single bulk annuity contract with LGAS (valued by the Scheme actuary at £287.7m) that matches the related actuarial liabilities. The Scheme also holds some surplus cash beyond this bulk annuity, with £1.9m retained in a liquidity fund with BMO as well as £1.4m in the Trustee Bank account to meet ongoing expenses.

Review of investment performance

Fund	12 month performance to 31 December 2021	
	Fund (%)	Benchmark (%)
BMO - Passive LDI¹	-3.1%	-3.1%
Aegon – European ABS Composite Fund²	0.9%	1.1%
PIMCO – Global LIBOR Plus Bond Fund²	0.4%	1.5%
TwentyFour – Dynamic Bond Fund I²	2.8%	3.0%

Source: Refinitiv, Individual managers.

¹ Reflects unit price performance (net of fees) from January to September 2021 (when the buy-in with LGAS was transacted). The benchmark return has been assumed to equal fund return over the period. This is because from July 2021 onwards, the LDI fund tracked the "price-lock"; the method used for rolling forward the buy-in quotation prior to the transaction. Source: BMO.

² Note that the performance figures quoted reflect performance from 31/12/20 – 30/09/21 i.e. the day of the final redemption from the funds were instructed. Source: Refinitiv.

Estimated Scheme Performance	12 Months	3 Years (p.a.)	5 Years (p.a.)
Reuters SPS	-1.6%	4.3%	1.8%

Sources: BMO, BNVM, Redington. Estimated Scheme level performance is assumed to be nil after September 2021, which was the last date portfolio valuations were available before the buy-in was transacted. From January to September 2021, Scheme returns reflect the weighted return from the Scheme's underlying assets (excluding cash and currency overlay). From 31/7/19 – 31/12/2020, returns were calculated by observing changes in total asset values and adjusting for net cashflows. Prior to 31/7/19, Scheme returns were calculated by BNVM and include the impact of currency hedging.

As the buy-in insurance contract is designed so that the asset value and actuarial liability values match, no Scheme performance return is provided on such a contract after the date the contract has been entered into. The other Scheme assets are deemed to be not material.

Trustee's Report

Investment manager remuneration

The Trustee has entered into an agreement with the investment manager whereby its fee is based on the value of assets under its management (in the case of BMO).

Marketability of Investments

The full buy-in contract with LGAS is permanent and has no marketability and residual Scheme assets are held as cash with BMO.

Employer-related investments

There were no directly or indirectly held employer-related investments at the year end (2020: none).

Further Investment disclosures

Further details on the Investment Strategy, objectives and Investment risks are disclosed in note 18 to the financial statements.

Trustee's Report

Implementation Statement

Introduction

The Trustee is required to produce an annual Implementation Statement (the "Statement") setting out how voting and engagement policies in the Statement of Investment Principles (the "SIP") have been implemented. This document also includes a brief summary of updates to the SIP over the reporting period.

This document has been prepared by the Trustee of the Reuters Supplementary Pension Scheme, covering the period 1 January 2021 to 31 December 2021.

This Statement has been produced in accordance with the Occupational and Personal Pension Schemes (Disclosure of Information) Regulations 2013 the Pension Protection Fund (Pensionable Service) and Occupational Pension Schemes (Investment and Disclosure) (Amendment and Modification) Regulations 2018 and the Occupational Pension Schemes (Investment and Disclosure) (Amendment) Regulations 2019 as amended, and the guidance published by the Pensions Regulator.

The Statement looks to set out how the Trustee's policy on stewardship and engagement has been implemented during the reporting period. Where relevant, the Statement describes the areas of the portfolio where stewardship and engagement are most likely to be financially material. Overall, the Trustee is comfortable that the voting and engagement policies set out in the SIP have been properly adhered to over the period.

Changes to the SIP over the period

No changes were made to the SIP over the period (1/1/2021 – 31/12/2021); however, there was a material change to the investment strategy. In September 2021, the Trustee purchased a bulk annuity insurance contract with Legal & General Assurance Society Limited which covers all members of the Scheme. A new SIP was agreed post year end in April 2022.

Stewardship, engagement and voting behaviour

Direct engagement with underlying companies (as well as other relevant persons) of which the Trustee owns shares and debt is carried out by the Scheme's investment managers. The Trustee's ability to influence investment managers' stewardship activities will depend on the nature of the investments held. Prior to the aforementioned buy-in transaction, the Scheme's assets were invested in pooled funds – where the Trustee holds units in a fund rather than having any direct ownership rights over the underlying assets. As such, the Trustee has more limited scope to influence managers' stewardship activities.

The Trustee's policy is to delegate responsibility for the engagement with relevant persons, which includes the exercising of rights (including voting rights where applicable) attached to investments made by the investment managers. The Trustee expects all of its investment managers to practise good stewardship and seeks to choose managers that align with its beliefs regarding this.

When selecting new managers, the Trustee's Investment Adviser assesses the ability of each investment manager to engage with underlying companies to promote their long-term success. Additionally, if a manager's approach is deemed to be inadequate, the Trustee will engage with the investment manager to better align it with the Trustee's policy.

Trustee's Report

Stewardship and engagement (including the use of voting rights) is most likely to be financially material in the sections of the portfolio where physical equities are held. Over the period the Scheme had no exposure to physical equity holdings. Engagement is also considered to be of importance for the Scheme's other (non-equity) investment managers, though data to evidence their approach is more difficult to obtain.

The Trustee is comfortable that the voting and engagement policies have all been adequately followed over the reporting period.

Trustee's Report

Other Matters

Taxation

The Scheme is a registered pension scheme under Chapter 2 of part 4 of the Finance Act 2004.

MoneyHelper

The Money and Pensions Service (MaPS) was created in 2019 as a single body to bring together the services previously delivered by The Pensions Advisory Service (TPAS), the Money Advice Service and Pension Wise, providing information to the public on matters relating to workplace and personal pensions. With effect from 30 June 2021, MaPS has been re-branded as MoneyHelper but still offers all the same services. Money and Pensions Service, 120 Holborn, London, EC1N 1TD

Telephone: 0800 011 3797

Email: pension.enquiries@moneyhelper.org.uk

Web: <https://www.moneyhelper.org.uk>

Pensions Ombudsman

The Pensions Ombudsman will assist members and beneficiaries of the Scheme in connection with difficulties which they have failed to resolve with the Trustee or Administrator of the Scheme and may investigate and determine any complaint or dispute of fact or law in relation to an occupational pension scheme. The Pensions Ombudsman may be contacted at: 1st Floor, 10 South Colonnade, Canary Wharf, London, E14 4PU

Telephone: 0800 917 4487

Early resolution email: helpline@pensions-ombudsman.org.uk

Email: enquiries@pensions-ombudsman.org.uk

Pension Tracing Service

A register is maintained to help current or former members to trace their pension rights. The Scheme is registered and relevant details have been given to the Regulator who can be contacted at: Pensions Tracing Service, The Pension Service 9, Mail Handling Site A, Wolverhampton, WV98 1LU

Telephone: 0800 731 0193

Web: <https://www.gov.uk/find-lost-pension>

The Pensions Regulator

The Pensions Regulator is able to intervene in the running of schemes where trustees, employers or professional advisors have failed in their duties. The contact details are: The Pensions Regulator, Napier House, Trafalgar Terrace, Brighton, BN1 4DW

Telephone: 0345 600 7060

Web: www.thepensionsregulator.gov.uk

Email: customersupport@tpr.gov.uk

Trustee's Report

Report on Actuarial Liabilities

I carried out an actuarial valuation of the Reuters Supplementary Pension Scheme as at 31 December 2019, the main purpose of which was to review the Scheme's financial strength at that date. The valuation was carried out under the requirements of the Pensions Act 2004. It used various measures and covered both members' past service benefits (i.e. pensions arising from service with the Company up to the date of valuation) and future service benefits (i.e. pensions which will arise from service with the Company after the valuation date).

The following is a summary of the results and assumptions used at the valuation date.

The financial strength of the Scheme, assessed using assumptions about future events agreed by the Trustee and the Company as being appropriate to meet member benefits (assuming the Scheme continues as a "going concern"), was 106% in respect of past service benefits:

	£m
Liabilities*:	(290.7)
Assets:	308.8
<hr/>	
Past service funding surplus	18.1
Funding level:	106%

*under the Pensions Act 2004, these are referred to as "technical provisions"

The 31 December 2019 valuation was undertaken using a yield curve approach. Under this approach different assumptions are used to value the benefits depending on when they are paid. For example, different assumptions are used to value a benefit payable in 5 years' time compared to a benefit payable in 20 years' time. Full details of the yield curves used to value the liabilities can be found in my formal report dated 26 November 2020. A high-level summary of how the key assumptions were derived is described below.

Discount rate	Fixed interest gilt curve at valuation date plus 0.25 % p.a.
Rate of salary increases (in addition to promotional increases)	RPI inflation plus 1.5 % p.a.
Rate of price increases - Retail Prices Index (RPI) - Consumer Prices Index (CPI)	Derived from the Bank of England implied inflation curve at valuation date. RPI inflation less 0.9 % p.a.
Pension increases	Derived from price inflation assumptions with allowance for caps and floors and assuming inflation volatility to be in line with the Scheme Actuary's best estimate assumption
Deferred pension revaluations	Derived from price inflation assumptions with allowance for caps
Life expectancy - UK member currently aged 62 - UK member currently aged 42 on reaching age 62	89.5 (males), 91.2 (females) 91.1 (males), 92.8 (females)
GMP equalisation	A reserve of 0.15% of the liabilities has been included in the technical provisions as an approximate cost of GMP equalisation

Note: I have taken into account the agreement by the Trustee and the Company to provide annual increases to pre 1997 pensions in payment in excess of GMPs until 1 January 2024, as explained in my formal actuarial valuation report.

Trustee's Report

The financial strength of the Scheme assessed against the estimated cost of securing past service benefits with an insurance company was approximately 95%. As part of the actuarial valuation as at 31 December 2019, the Trustee and Company agreed to increase the contributions the Company makes to the Scheme in respect of members' future service benefits, from 1 January 2021 to 56.5% of members' Pensionable Salaries.

Expenses

The Company has also agreed to pay a fixed amount into the Scheme each year to cover the administration costs of running the Scheme and the cost of the levies that the Scheme has to pay in relation to the Pension Protection Fund (PPF) and the Pensions Regulator. The Company has paid £1,374,042 in 2020 and agreed to pay £851,431 in 2021, £845,534 in 2022, £862,104 in 2023, £866,875 in 2024 and £872,438 in 2025.

At the Trustee's request, the Company will pay an additional contribution in respect of the amount (if any) that the actual PPF levy (and other levies collected by the Pensions Regulator) exceed £50,000 in any year. The Company will continue to pay any insurance company premiums required for insuring the death in service benefit.

This report relates to the Scheme's financial position at the valuation date. As time moves on, the Scheme's finances will fluctuate.

Full details of the valuation results are set out in my formal report dated 26 November 2020. This report should be read in conjunction with the formal report, including the statements on the purpose, scope and limitations of reliance on my advice and may only be relied upon by the Trustee.

The next formal actuarial valuation is due to be carried out at 31 December 2022.

Trustee's Report

Statement of trustee's responsibilities

The trustee's responsibilities in respect of the financial statements

The financial statements, which are prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including the Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102"), are the responsibility of the trustee. Pension scheme regulations require, and the trustee is responsible for ensuring, that those financial statements:

- show a true and fair view of the financial transactions of the scheme during the scheme year and of the amount and disposition at the end of the scheme year of its assets and liabilities, other than liabilities to pay pensions and benefits after the end of the scheme year; and
- contain the information specified in Regulation 3A of the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996, including making a statement whether the financial statements have been prepared in accordance with the relevant financial reporting framework applicable to occupational pension schemes.

In discharging these responsibilities, the trustee is responsible for selecting suitable accounting policies, to be applied consistently, making any estimates and judgements on a prudent and reasonable basis, and for ensuring that the financial statements are prepared on a going concern basis unless it is inappropriate to presume that the scheme will continue as a going concern.

The trustee is also responsible for making available certain other information about the scheme in the form of an annual report.

The trustee has a general responsibility for ensuring that accounting records are kept and for taking such steps as are reasonably open to it to safeguard the assets of the scheme and to prevent and detect fraud and other irregularities, including the maintenance of an appropriate system of internal control.

The trustee is also responsible for the maintenance and integrity of the Reuters SPS website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The trustee's responsibilities in respect of contributions

The trustee is responsible under pensions legislation for preparing, and from time to time reviewing and if necessary revising, a schedule of contributions showing the rates of contributions payable to the scheme by or on behalf of employers and the active members of the scheme and the dates on or before which such contributions are to be paid.

The trustee is also responsible for keeping records in respect of contributions received in respect of any active member of the scheme and for adopting risk-based processes to monitor whether contributions that fall due to be paid are paid into the scheme in accordance with the schedule of contributions.

Where breaches of the schedule occur, the trustee is required by the Pensions Acts 1995 and 2004 to consider making reports to the Pensions Regulator and to members.

Approval

The Trustee's Report on pages 6 to 20 was approved by the Trustee and signed on its behalf by:

Greg Meekings

Trustee Director

12 August 2022

Date

Actuarial Certification of the Schedule of Contributions

Name of scheme: Reuters Supplementary Pension Scheme

Adequacy of rates of contributions

1. I certify that, in my opinion, the rates of contributions shown in this schedule of contributions are such that the statutory funding objective could have been expected on 31 December 2019 to continue to be met for the period for which the schedule is to be in force.

I also certify that the rates of contributions shown in this schedule are not lower than I would have provided for had I had responsibility for preparing or revising the schedule, the statement of funding principles and any recovery plan.

Adherence to statement of funding principles

2. I hereby certify that, in my opinion, this schedule of contributions is consistent with the Statement of Funding Principles dated 26 November 2020.

The certification of the adequacy of the rates of contributions for the purpose of securing that the statutory funding objective can be expected to be met is not a certification of their adequacy for the purpose of securing the scheme's liabilities by the purchase of annuities, if the scheme were wound up.

Summary of Contributions for the Year Ended 31 December 2021

During the year ended 31 December 2021, the contributions payable to the Scheme were as follows:

	£'000
Employer	
- Normal	43
- Additional – expense contributions	851
Contributions payable under the Schedule of Contributions and as reported on by the Scheme auditors	894

Reconciliation of contributions payable under the Schedule of Contributions to contributions reported in the financial statements in respect of the Scheme year ended 31 December 2021

	£'000
Contributions payable under the Schedule (as above)	894
Total contributions reported in the financial statements	894

Contributions were received in accordance with the dates stipulated on the Schedule of Contributions dated 26 November 2020.

Approved by the Trustee and signed on its behalf by:

Independent auditors' statement about contributions to the trustee of Reuters Supplementary Pension Scheme

Statement about contributions

Opinion

In our opinion, the contributions payable under the schedule of contributions for the scheme year ended 31 December 2021 as reported in Reuters Supplementary Pension Scheme's summary of contributions have, in all material respects, been paid in accordance with the schedule of contributions certified by the scheme actuary on 26 November 2020.

We have examined Reuters Supplementary Pension Scheme's summary of contributions for the scheme year ended 31 December 2021 which is set out on the previous page.

Basis for opinion

Our examination involves obtaining evidence sufficient to give reasonable assurance that contributions reported in the summary of contributions have, in all material respects, been paid in accordance with the relevant requirements. This includes an examination, on a test basis, of evidence relevant to the amounts of contributions payable to the scheme under the schedule of contributions, and the timing of those payments.

Responsibilities for the statement about contributions

Responsibilities of the trustee in respect of contributions

As explained more fully in the statement of trustee's responsibilities, the scheme's trustee is responsible for preparing, and from time to time reviewing and if necessary revising, a schedule of contributions and for monitoring whether contributions are made to the scheme by employers in accordance with relevant requirements.

Auditors' responsibilities in respect of the statement about contributions

It is our responsibility to provide a statement about contributions and to report our opinion to you.

Use of this report

This report, including the opinion, has been prepared for and only for the trustee as a body in accordance with section 41 of the Pensions Act 1995 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Independent auditors' report to the trustee of Reuters Supplementary Pension Scheme

Report on the audit of the financial statements

Opinion

In our opinion, Reuters Supplementary Pension Scheme's financial statements:

- show a true and fair view of the financial transactions of the scheme during the year ended 31 December 2021, and of the amount and disposition at that date of its assets and liabilities, other than liabilities to pay pensions and benefits after the end of the year;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- contain the information specified in Regulation 3A of the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996.

We have audited the financial statements, included in the Trustee's Annual Report and Financial Statements, which comprise: the Statement of Net Assets available for benefits as at 31 December 2021; the Fund Account for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the scheme in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the scheme's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the trustee's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the scheme's ability to continue as a going concern.

Our responsibilities and the responsibilities of the trustee with respect to going concern are described in the relevant sections of this report.

Independent Auditors' Report to the trustee of Reuters Supplementary Pension Scheme

Reporting on other information

The other information comprises all the information in the Trustee's Annual Report and Financial Statements other than the financial statements, our auditors' report thereon and our auditors' statement about contributions. The trustee is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Responsibilities for the financial statements and the audit

Responsibilities of the trustee for the financial statements

As explained more fully in the statement of trustee's responsibilities, the trustee is responsible for ensuring that the financial statements are prepared in accordance with the applicable framework and for being satisfied that they show a true and fair view. The trustee is also responsible for such internal control as it determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In the preparation of the financial statements, the trustee is responsible for assessing the scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustee either intends to wind up the scheme, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the scheme and its environment, we identified that the principal risks of non-compliance with laws and regulations related to the administration of the scheme in accordance with the Pensions Acts 1995 and 2004 and regulations made under them, and codes of practice issued by the Pensions Regulator; and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered the direct impact of these laws and regulations on the financial statements. We evaluated incentives and opportunities for fraudulent manipulation of the financial statements, including the risk of override of controls, by the trustee and those responsible for, or involved in, the preparation of the underlying accounting records and financial statements, and determined that the principal risks were related to posting inappropriate journals to conceal misappropriation of assets and inappropriate adjustments of asset valuations.

Independent Auditors' Report to the trustee of Reuters Supplementary Pension Scheme

Audit procedures performed by the engagement team included:

- Testing journal entries where we identified particular fraud risk criteria.
- Obtaining independent confirmations of material investment valuations and cash balances at the year end.
- Testing estimates and judgements made in the preparation of the financial statements for indicators of bias.
- Reviewing meeting minutes, any correspondence with the Pensions Regulator, and significant contracts and agreements.
- Holding discussions with the trustee to identify significant or unusual transactions and known or suspected instances of fraud or non-compliance with applicable laws and regulations.
- Assessing financial statement disclosures, and agreeing these to supporting evidence, for compliance with the Pensions Acts 1995 and 2004 and regulations made under them.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinion, has been prepared for and only for the trustee as a body in accordance with section 41 of the Pensions Act 1995 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Current liabilities	20	(554)	(556)
Net assets available for benefits at 31 December		299,294	333,996

The financial statements summarise the transactions of the Scheme and deal with the net assets at the disposal of the Trustee. They do not take account of obligations to pay pensions and benefits which fall due after the end of the Scheme year.

The actuarial position of the Scheme, which takes into account such obligations, is dealt with in the report on Actuarial Liabilities on pages 17 and 18 of the Annual Report and these financial statements should be read in conjunction with this report.

The accompanying notes on pages 29 to 40 are an integral part of these financial statements.

*the comparative 2020 balances have been restated (see note 23).

These financial statements on pages 27 to 40 were approved by the Trustee and signed on its behalf by:

Greg Meekings
Trustee Director

12 August 2022

Date

Notes to the Financial Statements

1. Basis of preparation

The individual financial statements of Reuters Supplementary Pension Scheme have been prepared in accordance with the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996, Financial Reporting Standard (FRS) 102 - The Financial Reporting Standard applicable in the UK and Republic of Ireland issued by the Financial Reporting Council ("FRS 102") and the guidance set out in the Statement of Recommended Practice "Financial Reports of Pension Schemes" (revised June 2018) ("the SORP").

2. Identification of the financial statements

The Scheme is an occupational defined benefit pension arrangement established as a trust under English Law and is closed to new members. The address of the Scheme is Five Canada Square, Canary Wharf, London, E14 5AQ.

3. Accounting policies

The following principal accounting policies have been applied consistently in the preparation of the financial statements.

Contributions and benefits

Contributions and benefits payable are accounted for on an accruals basis in the period to which they relate. Normal contributions and voluntary pension adjustment contributions are accounted for in accordance with the Schedule of Contributions agreed by the Trustee with the Sponsoring Employer. Deficit contributions and expense contributions are accounted for in accordance with the agreement under which they are paid or, in the absence of an agreement, in the period in which they are received.

Transfers to and from other plans

Transfer values represent the capital sums either receivable in respect of members from other pension plans of previous employers or payable to other pension plans for members who have left the Scheme. They are accounted for on an accrual basis on the date the trustees of the receiving scheme accept the liability. The liability normally transfers when payment is made, unless the trustees of the receiving scheme have agreed to accept liability in advance of receiving the funds.

Payments to members

Benefits are accounted for in the later of the period in which the member notifies the Trustee of their decision on the type or amount of benefit to be taken, and the date of retiring or leaving. If there is no member choice the date of retiring, leaving or notification of death is used.

Pensions in payment are accounted for in the period to which they relate.

Where the Trustee is required to settle tax liabilities on behalf of a member (such as when lifetime or annual allowances are exceeded) with a consequent reduction in that member's benefits receivable from the Scheme, this is shown separately within benefits.

Notes to the Financial Statements

3. Accounting policies (continued)

Investment returns

Income from investments and deposits is dealt with on an accruals basis. All investment income received is stated inclusive of any related taxation recoverable but net of any irrecoverable overseas withholding taxes and costs of collection, where applicable. Income from pooled investment vehicles is stated net of management fees. Where pooled investment managers reinvest investment income, this is treated as accumulating within the fund value.

Transaction costs are included in the cost of purchases and sale proceeds. Transaction costs include costs charged directly to the Scheme such as fees, commissions, stamp duty and other fees. Other investment management expenses are accounted for on an accruals basis and shown separately within investment returns.

The change in market value of investments are accounted for in the year in which they arise and include all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on sales of investments and unrealised changes in market value.

Income arising from annuity policies is included in investment income on an accruals basis.

Valuation of investments

The Qualifying Investment Fund (QIF) is accounted for on the fair value of the underlying assets as set out for each of the asset types that are held within it.

Pooled investment vehicles are valued at closing bid price provided by the relevant fund managers, where available, or if single priced, at the closing single price.

The Trustee holds an annuity policy with Legal & General Assurance Society Limited that secures the pensions payable to specified beneficiaries. This policy has been valued by Aon, the Scheme Actuary. The policy has been valued on the technical provisions assumptions agreed for the 31 December 2019 actuarial valuation updated for market conditions at the current year end. Further details of the technical provisions' assumptions used is set out below. A description of the key financial and demographic assumptions is set out below.

Discount rate	Fixed interest gilt curve at valuation date plus 0.25 % p.a.
Rate of salary increases (in addition to promotional increases)	RPI inflation plus 1.5 % p.a.
Rate of price increases	Derived from the Bank of England implied inflation curve at valuation date.
- Retail Prices Index (RPI)	
- Consumer Prices Index (CPI)	RPI inflation less 0.9 % p.a.
Pension increases	Derived from price inflation assumptions with allowance for caps and floors and assuming inflation volatility to be in line with the Scheme Actuary's best estimate assumption
Deferred pension revaluations	Derived from price inflation assumptions with allowance for caps
Life expectancy	
- UK member currently aged 62	89.5 (males), 91.2 (females)
- UK member currently aged 42 on reaching age 62	91.1 (males), 92.8 (females)
GMP equalisation	A reserve of 0.15% of the liabilities has been included in the technical provisions as an approximate cost of GMP equalisation

AVC investments are included at fair values as provided by the AVC investment manager.

Notes to the Financial Statements

3. Accounting policies (continued)

Investment management and administrative expenses

Investment management and administrative expenses are met by the Scheme and accounted for on an accruals basis, net of recoverable VAT.

Presentation currency

The Scheme's functional and presentation currency is pounds sterling. Monetary items denominated in foreign currency are translated into sterling using the closing exchange rates at the Scheme year end. Foreign currency transactions are recorded in sterling at the spot exchange rate at the date of the transaction.

Foreign income and expenses are translated into sterling at the rate ruling at the date of the transaction. Assets and liabilities in foreign currencies are expressed in sterling at the rates of exchange ruling at the year end. Surpluses and deficits arising on conversion or translation are dealt with as part of the change in market value of investments.

Taxation

The Scheme is registered under the Finance Act 2004. Prior to the introduction of this Act, the Scheme was an "exempt approved scheme" under the terms of the Income and Corporation Taxes Act 1988.

Critical accounting estimates and judgements

The Trustee makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. For the Scheme, the Trustee believes the only estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are related to the valuation of the Scheme investments and, in particular, those classified in Level 3 of the fair-value hierarchy. Explanation of the key assumptions underpinning the valuation of investments are included above.

Notes to the Financial Statements

4. Employer contributions

	2021 £'000	2020 £'000
Employer contributions		
Normal	43	82
Additional – pension increases agreement	-	1,670
Additional – expense contributions	851	1,374
Voluntary pensions adjustment contributions	-	1
	894	3,127

Employer normal contributions above include salary sacrifice contributions in respect of members during the year.

The additional Employer contributions received in the prior year in respect of the annual cost of living pension increases agreement relate to contributions outside of any agreed recovery plan.

Under the Schedule of Contributions, the Company has agreed to pay £851k in 2021, £846k in 2022, £862k in 2023, £867k in 2024 and £872k in 2025 to the Scheme in respect of the cost of administrative expenses.

5. Transfers from other plans

	2021 £'000	2020 £'000
Transfers from Refinitiv Retirement Plan	-	2,100

6. Other income

	2021 £'000	2020 £'000
Accrued interest	2,246	-

As referenced in notes 19 and 23, the misallocation of funding as between the Scheme and the Reuters Pension Fund has been accounted for; with cumulative accrued interest on the amounts due to the Scheme from the Reuters Pension Fund being agreed between the respective trustees of the two plans.

7. Benefits paid or payable

	2021 £'000	2020* £'000
Pensions	11,997	11,782
Lump sum retirement benefits	652	275
Annual allowance exceeded	89	-
	12,738	12,057

*the comparative 2020 balances have been restated (see note 23).

Notes to the Financial Statements

8. Transfers to other plans

	2021 £'000	2020 £'000
Transfers to other plans	2,111	2,211

9. Administrative expenses

	2021 £'000	2020 £'000
Administration and processing	69	35
Actuarial fees	416	579
Audit fees	37	59
Legal and professional	371	214
PPF Levy	6	5
Trustee's fees and expenses	79	67
Other expenses	1	2
	979	961

10. Investment income

	2021 £'000	2020 £'000
Interest on cash deposits	1	1
Annuity income	3,194	-
	3,195	1

11. Investment management expenses

	2021 £'000	2020 £'000
Investment management fees*	-	(50)
Investment consultancy fees	280	233
	280	183

*Over accrual in 2019 caused positive balance in 2020.

Notes to the Financial Statements

12. Reconciliation of net investments

	Value at 01.01.21 £'000	Purchases £'000	Sales £'000	Change in market value £'000	Value at 31.12.21 £'000
Qualifying investment fund	317,999	-	(306,471)	(9,635)	1,893
AVCs	88	-	(90)	6	4
Insurance policy	-	303,000	-	(15,300)	287,700
	318,087	303,000	(306,561)	(24,929)	289,597
Other investment balances	-				(6,389)
	318,087				283,208

In September 2021, the Trustee entered into a buy-in, bulk annuity insurance contract with Legal & General Assurance Society Limited ("LGAS"), covering all pensioners and deferred members of the Scheme as at the contract inception date. The total consideration due under the contract, subject to certain specified amendments, was c£303m, of which £296.6m has been paid in the year ended 31 December 2021 and the balance of £6.4m is due by 30 September 2022.

The insurance policy value as at 31 December 2021 has been calculated by the Scheme actuary (Aon) using an approximate roll forward of the assumptions used as at 31 December 2019 on the technical provisions basis agreed by the Trustee and Employer, as set out in the Statement of Funding Principles dated 26 November 2020 (see note 3). The roll forward approach is approximate and uses market conditions as at 31 December 2021.

The agreed technical provisions basis allows the CPI assumption to change at future dates in line with Aon's best estimate. The CPI assumption was set as RPI-0.9% p.a. as at 31 December 2019. As at 31 December 2021, Aon's best estimate assumption for CPI was RPI-0.9% p.a. pre-2030, and RPI-0.1% p.a. post-2030.

The insurance policy value is based on membership data as at 31 December 2019, but allows approximately for member movements to 31 December 2021 and the actual 1 January 2021 and 2022 pension increases applied since the valuation date.

The table below shows a sensitivity analysis with a +/- 0.1% pa adjustment to the key assumptions, being the discount rate and RPI inflation.

The RPI sensitivities assume a change to the RPI assumption and to any other assumption which is set with reference to the RPI assumption (which includes the CPI assumption and pension increase assumptions). The sensitivities on the insurance policy value as at 31 December 2021 have been calculated approximately.

Sensitivities as at 31 December 2021	Value of insurance policy £'000
Base case	287,700
Discount rate + 0.1% pa	284,257
Discount rate - 0.1% pa	291,231
RPI Inflation + 0.1% pa	289,644
RPI Inflation - 0.1% pa	285,779

The Trustee holds assets invested separately from the main Scheme with Prudential securing additional benefits on a Money Purchase basis for those members that elected to pay Additional Voluntary Contributions (AVCs). Members who paid AVC's each receive an annual statement confirming the amounts held to their account and the movements in the year. The qualifying investment fund (QIF) is an investment vehicle for which the Scheme is the sole investor. The breakdown of asset types within the QIF is shown in note 13.

Notes to the Financial Statements

13. Analysis of investment assets and liabilities

	2021 £'000	2020 £'000
Qualifying investment fund - BMO		
Pooled investment vehicles	-	114,638
Cash	1,893	4,658
Bonds	-	311,888
Currency hedging-net	-	(1,501)
Repurchase agreements	-	(111,684)
	1,893	317,999
Other investment assets		
AVCs (with-profits)	4	27
AVCs (unit linked)	-	61
Total	4	318,087

14. Transaction costs

Transaction costs are included in the cost of purchases and sale proceeds. Direct transaction costs, including costs charged to the Scheme such as fees, commissions and stamp duty were £nil (2020: £nil).

In addition, indirect costs are incurred through the bid-offer spread on investments within pooled investment vehicles and charges made within those vehicles. It is not possible for the Trustee to quantify such indirect transaction costs.

15. Concentration of investment

The following investments represent more than 5% of the total value of net assets of the Scheme:

	2021 Market Value £'000	2021 Percentage of Net Assets %	2020 Market Value £'000	2020 Percentage of Net Assets %
Insurance policy	287,700	96.1	-	-
Qualifying Investment Fund - BMO	1,893	0.6	317,999	95.2

Notes to the Financial Statements

16. Employer-related investments

There were no directly or indirectly held employer-related investments at the year-end (2020: none).

17. Fair value determination

The fair value of financial instruments has been disclosed using the following fair value hierarchy:

Level 1	The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the assessment dates.
Level 2	Inputs other than quoted prices included within Level 1 which are observable (ie developed) for the asset or liability, either directly or indirectly.
Level 3	Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

A fair value measurement is categorised in its entirety on the basis of the lowest level input which is significant to the fair value measurement in its entirety.

The Scheme's investment assets and liabilities fall within the above hierarchy levels as follows:

As at 31 December 2021	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000
Qualifying investment fund	1,893	-	-	1,893
AVCs	-	-	4	4
Insurance policy	-	-	287,700	287,700
Other investment balances	(6,389)	-	-	(6,389)

Notes to the Financial Statements

18. Investment risk disclosures

FRS 102 requires the disclosure of information in relation to certain investment risks as follows:

Credit risk – the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Market risk – comprises the following three types of risk:

Interest rate risk: The risk that the fair value or future cashflows of a financial asset will fluctuate because of changes in market interest rates.

Currency risk: The risk that the fair value or future cashflows of a financial asset will fluctuate because of changes in foreign exchange rates.

Other price risk: The risk that the fair value or future cashflows of a financial asset will fluctuate because of changes in market prices (other than those due to interest rates and currency).

The Trustee determines its investment strategy after taking advice from a professional investment adviser. The Scheme has exposure to these risks because of the investments it makes. The Trustee manages investment risks, including credit risk and market risk, within agreed risk limits which are set taking into account the Scheme's strategic investment objectives. These investment objectives and risk limits are implemented through the investment management agreement in place with the Scheme's investment manager and monitored by the Trustee by regular reviews of the investment portfolio.

Further information on the Trustee's approach to risk management is set out below:

Credit Risk

As at 31 December 2021, the Scheme's asset allocation principally consisted of a single bulk annuity valued at £287.7m (2020: £nil) contract with Legal & General Assurance Society Limited ("LGAS") that matches the related actuarial liabilities. This covers all members of the Scheme and is intended to provide an income to the Scheme matching the pension payments due to the Scheme's members. As such, there is default risk associated with the contract. The Trustee relies on the regulatory framework that LGAS operates under to mitigate risk, governed by the Prudential Regulatory Authority, e.g. the regulatory capital requirements. In the event of default by the insurer, the Scheme is expected to be eligible for compensation from the Financial Services Compensation Scheme ("FSCS"), up to the full value of the benefits insured, based on the current FSCS rules.

The legal nature of the QIF investments held is as follows:

	2021 £m	2020 £m
Open ended investment company	-	45.9
UK Authorised ICVC	-	24.1
Open ended Irish collective management vehicle	-	44.6
Luxembourg mutual investment umbrella fund	1.9	203.4
	1.9	318.0

Notes to the Financial Statements

18. Investment risk disclosures (continued)**Market risk: Interest rates**

As at 31 December 2021, the Schemes asset allocation principally consisted of a single bulk annuity contract with LGAS. This covers all members of the Scheme and is intended to provide an income to the Scheme matching the pension payments due to the Scheme's members. As such, interest rate and inflation risks at a net level are nil. However, there is interest rate risk at the asset level as being included in these financial statements, given the nature of the key assumptions underlying the valuation of the asset.

Market risk: Currency

Due to the Scheme's asset allocation consisting principally of the bulk annuity contract, currency risk is nil.

Market risk: Other price

Due to the Scheme's asset allocation consisting principally of the bulk annuity contract, other price risk is nil.

19. Current assets

	2021 £'000	2020* £'000
Cash balances	1,429	4,895
Amounts due from Refinitiv Limited	128	-
Amounts due from Reuters Pension Fund	15,083	11,570
	16,640	16,465

The amounts due from the Reuters Pension Fund comprise the total value of the misallocation of funding referred to in notes 6 and 7 and 23. These amounts were agreed between the respective trustees of the two pension plans in an agreement dated 13 July 2022; and paid on 3 August 2022.

*the comparative 2020 balances have been restated (see note 23).

20. Current liabilities

	2021 £'000	2020 £'000
Accrued expenses	280	272
Tax due to HMRC	274	284
	554	556

Notes to the Financial Statements

21. Related party transactions

Key management personnel of the Scheme

During the year, the Scheme paid pensions in respect of four (2020: four) Trustee Directors of the Scheme.

The Scheme pays a fee and expenses to the Chairman of the Trustee and fees to certain other Directors of the Trustee relating to the exercise of their duties. In 2021, these fees and expenses amounted to £78,596 (2020: £67,032) (see note 9). In addition, Independent Trustee Services Limited are paid a fee relating to the exercise of their duties covering both the Scheme and the related Reuters Pension Fund (RPF). This fee is met by the Sponsoring Employer and not recharged to the Scheme or RPF. In 2021 this fee was £58,000 (2020: £58,000).

Entities with control, joint control or significant influence over the Scheme

Certain Scheme expenses are initially paid by the Sponsoring Employer which is then reimbursed by the Scheme. Therefore at the year-end there may be amounts owing to the Sponsoring Employer from the Scheme. The amount due to be paid to the Sponsoring Employer in respect of fees and expenses for 2021 and included within note 20 is £272,772 (2020: £272,232).

The Trustee is in receipt of a guarantee dated 28 January 2021, signed by members of the Sponsoring Employer's group, whereby the financial obligations of the Scheme's Sponsoring Employer have been guaranteed up to a maximum value of £120m.

Except as disclosed in the financial statements there are no transactions, balances or relationships that require disclosure under FRS 102.

22. Contingent liabilities and commitments

In October 2018, the High Court ruled that pension schemes are required to equalise benefits between men and women for the effect of Guaranteed Minimum Pensions (GMP) which were accrued on or after 17 May 1990.

The High Court has since, in November 2020, determined that trustees owed a duty to a transferring member to make a transfer payment which reflected the member's right to equalised benefits. Where the initial transfer payment was inadequate on this basis trustees are under an obligation to make a top-up payment to the receiving scheme on behalf of the transferred member.

The Trustee is reviewing, with its advisers, the implication of these rulings in the context of the Scheme rules and the value of any liability. On completion of the review, the Trustee will put together a plan for correcting past benefits as well as inequalities in benefits coming into payment.

Other than the above, in the opinion of the Trustee, the Scheme had no contingent liabilities as at 31 December 2021 (2020: none).

Notes to the Financial Statements

23. Prior year adjustments

For certain Scheme pensioners, based on historic pension arrangements, the members receive part of their pension funded from the Scheme and part funded from the related Reuters Pension Fund ('RPF'); these are known as so-called 'dual pensioners'. In addition, certain pensioners receive an unfunded unapproved retirement benefit, administered through the Scheme and the RPF and funded by the Employer. During the course of the year ended 31 December 2021, it was identified that there has been errors in the misallocation of funding and accounting for the above amounts as between the Scheme and the RPF, spanning a number of years. This has no impact on the amounts actually paid to pensioner members. Following a detailed reconciliation exercise, it has been determined that an adjustment of £11,570k relates to periods prior to 2021. This misallocation of funding as between the Scheme and the RPF has been accounted for as a prior year adjustment. £9,778k relates to periods prior to 1 January 2020. £1,792k relates to the year ended 31 December 2020.

Area	As previously stated £'000	Adjustment £'000	As restated £'000
Fund Account year ended 31 December 2020			
Benefits paid or payable	(13,849)	1,792	(12,057)
New withdrawals from dealing with members	(11,794)	1,792	(10,002)
New increase in the fund during the year	13,537	1,792	15,329
Net assets at 1 January 2020	308,889	9,778	318,667
Net assets at 31 December 2020	322,426	11,570	333,996
Statement of Net Assets at 31 December 2020			
Current assets	4,895	11,570	16,465
Net assets at 31 December 2020	322,426	11,570	333,996

24. Covid-19 and other matters

Since March 2020, Covid-19 and other, more recent, geopolitical (such as Russia's war in Ukraine) and economic issues, has had a profound effect on domestic and global economies, with disruption and volatility in the financial markets. The Trustee, in conjunction with its advisers, monitors the situation closely and determines any actions that are considered to be necessary. This includes monitoring the Scheme's investment portfolio, the operational impact on the Scheme and the covenant of the Employer. The extent of the impact on the Scheme's investment portfolio, including financial performance, will depend on future developments in financial markets and the overall economy, all of which are uncertain and cannot be predicted. Since the year end, the value of the Scheme's investment assets and investment liabilities may have been impacted. Whilst the Trustee monitors the overall position, it has not, at this time, quantified the change (being an increase or decrease) in market value of investment assets and investment liabilities as markets remain fluid and unpredictable and therefore such an estimate cannot be made.
